| Classification of the substance or mixture         Finan. Actional 1 H222 Extremely flammable seriosi.         Press. Gas       1420 Contains gas under pressure; may explode if heated.         Eye Int: A.S.       1433 May cause drowsiness or dizziness.         STOT RE 2       1433 May cause drowsiness or dizziness.         Bignal word       Intervention of the substance seriosi.         Macro Statements       Darger         Wash Labor Statements       Darger         Wash Labor Statements       May cause damage to organs through molonged or repeated exposure.         Wash Anadis thorough wash wash and the substances lobiting the statements       Do not pierce or burn, even after use.         Wash Anadis thorough wash wash and the statements       Do not pierce or burn, even after use.         Wash Anadis thorough wash wash wash and the statements       Do not pierce or burn, even after use.         Wash Anadis thorough wash wash wash and the statements.       Report the state data statements.         Berne Otter Tom subjfth. State the statements washed and statements washed and statements.       Report the state that and keep controftable for breating.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |                                                                                                                                                                                                                                                                                                                                                                                                        |                                                                                                                                                                                                                                                                                                                               |                             |
